Senior UX/UI Design Leader with 7+ years of experience driving product strategy and user-centric design within enterprise B2B and SaaS platforms (HP, Wipro/Ford, Salesforce ecosystem). Proven expertise in transforming complex workflows into intuitive products, leading cross-functional teams (Engineering, Business, Sales), defining roadmaps based on quantitative data and business objectives, and seeking a Product Manager role to leverage a deep understanding of user behavior, design systems, and data-driven prioritization for maximum commercial impact.

Work Experience

Senior UX/UI Designer (CW) | HP Inc. (Oct 2024 - Present)

- Led design and implementation of agent-facing diagnostic dashboards (Retool), resulting in a 15% reduction in average call handling time (AHT) for L1 support agents.
- Drove integration strategy for unified data retrieval from 4+ backend systems, significantly improving data accuracy and enabling faster resolution times.
- Contributed to enhancing the design language and user experience for asset management software (Command Center 360, Contracts Management 360), adhering to HP Veneer Design System.

Senior UX/UI Designer | Wipro Limited (Oct 2024 - Present)

- Functioned as the sole designer and mini-Product Manager for Ford Pro's Fleet Management CRM, owning product discovery, strategy, and delivery of key modules.
- Redesigned legacy Salesforce CRM modules, greatly enhancing usability and visual consistency across dashboards, deal tracking, and reporting tools.
- Developed scalable design systems and UI libraries aligned with the Salesforce Lightning Design System (SLDS).

Senior UX/UI Designer | Fexle Services (Mar 2021 - Sept 2024)

- Led and managed the UI/UX design process for 12+ projects in the Salesforce domain, ensuring successful implementation and user adoption.
- Conducted user research for 10+ projects, including 50+ interviews and 60+ usability testing sessions, resulting in data-driven design decisions.

UX/UI Designer | Cyboticx LLC (DEC 2019 - MAR 2021)

- Spearheaded the redesign of the company website, resulting in a 30% increase in user engagement and a 20% improvement in conversion rates.
- Led the redesign of a critical mobile app, enhancing the user experience and achieving a 25% increase in app downloads within the first quarter.

Skills

- **Product Management:** Product Strategy, Roadmapping, Feature Prioritization, Agile/Scrum, User Stories, JIRA/Confluence.
- **UX/UI & Tools:** Figma, Adobe XD, Retool, HP Veneer Design System, Salesforce Lightning Design System (SLDS), Prototyping, Usability Testing, Information Architecture.
- **Data & Research:** User Research (Interviews, Surveys), Task Analysis, Data Analysis (Google Analytics/Amplitude), A/B Testing.
- **Technical Familiarity:** Salesforce CRM, HTML/CSS, Frontend Frameworks (Basic understanding).

Education

Bachelor's in Technology (Computer Science) | JECRC University, 2020

Certifications

- **IBM** - Enterprise Design Thinking
- **Google** - Foundation of User Experience
- **UC San Diego** - Human Centered Design Specialization (Ongoing)
